

Reference for Solitaire Homes

We met Mr Angelo Turcin (company director for Solitaire Homes) in 2006.

We were looking for a house to buy at that time and had been looking around for some time for a suitable builder. We had been through a number of display homes but none of them really grabbed our attention.

When we walked into Mr Turcin's display home in Parsley Street, Harrison, we knew then that we had found our builder. We spoke to Angelo immediately and found him easy to talk to and very professional. As it turned out, he had a block of land for sale in Harrison.

We made the necessary arrangements to purchase the land from Angelo and also contracted him to build our house. The construction of our house commenced in December 2006 and was completed in May 2007, within the agreed completion date.

We found Angelo to be an experienced and excellent builder. He is very professional and is flexible to his approach. His attention to detail is very impressive which in our view sets him apart from the others. The inclusions and materials that he uses are of top quality.

Angelo takes pride in his work and really goes out of his way to produce an excellent house and to ensure that his clients are happy with the final product.

He made our house-building experience stress-free as he is surrounded by professionals who work for him, and who share the same work ethics.

We've been in our house for close to two years now and we are really happy with it. We would definitely recommend Angelo to anyone considering building their own home.
